TEJMUZIK

My name is Tej, and I am a singer. Music is my identity, so there couldn't be a better name for me than Tejmuzik. I chose this name to push myself to achieve something exceptional in the music field. I started singing in 7th purely out of passion, never expecting to receive such love through social media. I have worked with Zee Music and was the first artist from Gujarat featured in Instagram's 1-minute music program. I am very proud that a single individual can achieve so much by following their passion.
